## **LITTLITE READING LIGHT**

**Littlite lampsets are perfect bedside reading lamps enabling "The Reader" to read while "The Sleeper" sleeps.**

**The Littlite lampset can be mounted on an HTC (High Tension Clamp) and clamped wherever the light is required or, depending on the headboard, the Littlite can be permanently mounted in place. (illustrated below) With a Littlite on each side of the bed each "Reader/Sleeper" can have their own personal light.**

**Whether you choose the dimmable high intensity model or our switchable red/white LED lampset you will have a high-quality product that will last you a lifetime, we guarantee it!**
