New *Littlite* Accessories

GXF-10 Power Supply

- Takes Up One Power Strip Space
- Improved Efficiency
- Convenient Disconnect for Easier Transport
- Smaller & Lighter

GXF-10 Accessory Cables

WYE – Connect two Littlite lampsets to a single GXF-10.

PYE – Connect up to four Littlite LED Lampsets to a single GXF-10.

EXT – Extend the length of the power cord.

BA – Power a Littlite Lampset from a 12-volt, BNC power connector.

GAD – Adapter to use GXF-10 with older Littlite Lampsets.

Rack it and Pack it with two new accessories from Littlite.

Our **RAKIT** mounts a Littlite lampset on a rack without taking up any rack space. Attach the lampset to the **RAKIT** and mount the **RAKIT** on the rack rail using available rack screws.

The Littlite **LITETOTE** keeps your Littlites safe and sound between shows. Sturdy material and hook and loop closure insures years of protection.

Improved Littlite LED Lampsets.

All Littlite LED lampsets now feature a new three-way rotary selector. Switch between red output/white output and the off position.

Improved fit with our new **RWB**, Round Weighted Base.
