Littlite®

MS Series

The MS-Series music stand light is designed to attach to any standard music stand with a flat-edge. The light can be mounted on the top or the side of the stand.

In order to provide a good grip on the music stand the clamp must be adjusted to fit. Loosen the two screws on the bottom of the light and adjust the clamp opening so that it grips the surface of the stand snugly. Tighten the screws.

For more information contact Littlite at (888) 548-8548 or visit
