May 2020,

Hello CAE customers:

We hope that you are weathering the storm and are safe and healthy!

Due to the Covid-19 pandemic, CAE is facing similar challenges to yours as we move toward fully re-engaging in business. We supply police, fire, safety and medical markets. We have been working to continue to supply those essential industries during the Michigan Stay-at-Home orders.

CAE is up to the challenges of keeping our employees safe. We are striving to minimize any vectors or channels that might allow the potential spread of infection here at work by:

- FOLLOWING CDC GUIDELINES.
- FOLLOWING CAE GUIDELINES.
- FOLLOWING STATE OF MICHIGAN GUIDELINES FOR RE-OPENING BUSINESSES.
- DISCOVERING BEST PRACTICES AND IMPLEMENTING THEM AS QUICKLY AS POSSIBLE.

We are sure that you have similar issues- plus asking tough questions such as: How will our markets change? How will requirements for our products change? Where are opportunities for us to help make our space and the world safer?

We will rise to the challenge and be here to meet your needs as we all move forward. Please be sure to contact us with any concerns or special needs.

Best wishes and good health to you all!

Jim and Rhonda Fackert, and the entire CAE team.
