

## Medical Cart Lighting Solutions

For over a decade Littlite has been increasing patient comfort in hospital rooms.

Anyone who has ever spent time in a hospital can relate to the discomfort of overhead lights turned on while sleeping.

Hospital technicians need to illuminate their work space with minimal disruption and discomfort to the patients and a durable task light is the solution.

Several companies have addressed this problem by integrating Littlites into rolling medical carts and wall mounted nursing stations.

### Why use Littlite?

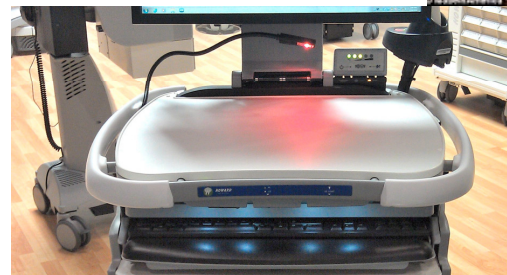

- Compact**- easy to install in small or tight spaces
- Flexible**- light output can be focused where needed
- Energy Efficient**- minimal power draw for use with cart batteries.

With over 300 configurations, we have a solution for any task lighting application.

Sleeping Patient

Overhead lights waking patient

Solution=Low profile/unobtrusive Littlite
